**5. An explanation of the rule, including the agency's reasons for initiating the rule:**

The proposed rules have been updated with an adjustment to the percentage applicable to Critical Access Hospitals (CAH). As of July 1, 2005 a new Outpatient Capped Fee for Service Schedule was created for outpatient payments. In addition to the regular payment that is calculated and described in the new schedule from 2005 a percentage adjustment to this amount was also required for those rural hospitals and specialty services.

From a recent review of data it has been substantiated that the majority of CAH's have been negatively impacted by the estimated adjustment percentage that was applied in 2005. This was contrary to what the Administration had forecasted in 2005. The Administration believes that with the proposed change in the adjustment fee percentage to 115%, five of eight CAH facilities will no longer be negatively impacted when compared to payments based on an updated CCR had no methodology change occurred.

In addition to the adjustment fee impact, it was also noted that a need to clarify rule R9-22-712.40 was needed to describe that the Administration may update new and revised procedure codes and APC groups.

**6. A reference to any study relevant to the rule that the agency reviewed and either proposes to rely on in its evaluation of or justification for the rule or proposes not to rely on in its evaluation of or justification for the rule, where the public may obtain or review each study, all data underlying each study, and any analysis of each study and other supporting material:**

No study was reviewed or used to rely on for the changes applicable to the proposed rules.

**7. A showing of good cause why the rule is necessary to promote a statewide interest if the rule will diminish a previous grant of authority of a political subdivision of this state:**

Not applicable

**8. The preliminary summary of the economic, small business, and consumer impact:**

The AHCCCS Administration believes that with the proposed change in the adjustment fee percentage to 115% five of eight CAH facilities will no longer be negatively impacted by the new payment methodology.

This change is estimated to have a fiscal impact to AHCCCS of approximately \$1.5 million based on current utilization.

The clarification provided in reference to the procedure codes and APC groups is estimated to have a nominal impact since it only clarifies how new and existing procedure codes and APC groups are updated.

##### **R9-22-712.40. Outpatient Hospital Reimbursement: Annual and Periodic Update**

A. Procedure Codes. AHCCCS shall add new procedure codes for covered outpatient services and shall either assign the default CCR, the Medicare rate, or calculate an appropriate fee when procedure codes are issued by CMS or the Current Procedural Terminology published by the American Medical Association.

B. APC Changes. AHCCCS may reassign procedure codes to new or different APC groups when APC groups are revised by Medicare. AHCCCS may reassign procedure codes to a different APC group than Medicare or not assign to any APC when AHCCCS determines that utilization of the code within the Medicare program is substantially different from the AHCCCS program. For procedure codes not grouped into an APC by Medicare, AHCCCS may assign the code to an APC group when AHCCCS determines that the cost and resources associated with the non-assigned code are substantially similar to those in a particular APC group.

BC. Annual Update ~~For~~ for Outpatient Hospital Fee Schedule. Beginning October 1, 2006, AHCCCS shall adjust outpatient fee schedule rates:

1. On an annual basis by multiplying the rates effective during the prior year by the Global Insight Prospective Hospital Market Basket Inflation Index; or
2. In any given year the director may substitute the increases in (B)(1) by calculating the dollar value associated with the inflationary increase in (B)(1), and applying that dollar value to adjust rates at varying levels.

CD. Rebase. AHCCCS shall rebase the outpatient fees every five years.

DE. Statewide CCR. The statewide CCR shall be recalculated at the time of rebasing, at which time AHCCCS may consider recalculating the statewide CCR based on the costs and charges for those services excluded from the outpatient hospital fee schedule.
